Hi Carol,

Sorry for the delay in getting back to you. NG's RW-21 treatment system area is for the eastern plume and is about 1.5 to 2 miles SE of NG-NWIRP property.

Lorenzo

**Subject:** Question on Grumman plume: RW-21

Hi Lorenzo - I am updating the attached, and I was wondering if you knew where the RW-21 area is located (i.e. western plume vs eastern plume, and how far from Grumman/Navy property)?

Thanks,  
Carol
